Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter may be used in a stock machine, and no modifications will be required. However there are special installation instructions, so please follow the procedures outlined below to ensure that the K&N Air Filter seals properly.

INSTALLATION

1. Remove Stock air filter.
2. Carefully clean the inside of the air box.
3. Install the K&N Air Filter into the top of the air box aligning the groove in the lid.
4. Reinstall the air filter and lid to the base and fasten clips.

These instructions must be followed every time the filter is serviced, otherwise the filter may not seal, and damage to the engine could result.
