However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N Filter.

INSTALLATION

1. Open the stock air boxes.
2. Remove the stock air filter elements and clean the inside of the box.
3. Place the K&N air filter #K332913RE (Fig. 1) into the passenger air box, and K&N air filter #K332938LE (Fig. 2) into the driver side air box.
