

# INSTALLATION INSTRUCTIONS

## Part Number E-1008

This filter fits: **See current catalog for applications**

**\*FREE K&N DECAL** To register your warranty, please see us online at [knfilters.com/register](http://knfilters.com/register). **FREE K&N DECAL\***

**Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure MUST be followed to ensure a proper fit and seal of the K&N Filtercharger®.**

- 1) Remove the air filter housing cover by unfastening the two clips.
- 2) Remove the dirty air filter from the housing.
- 3) With a damp rag, wipe off any dust or dirt from the inside of the air filter housing. The air filter housing must be clean and dry so that the self adhering gasket will stick to the housing.
- 4) Install the gasket onto the air filter housing by removing the white backing and place the gasket at the 6 o'clock position one inch from the edge.
- 5) Install the K&N FILTERCHARGER into the air filter housing, making sure it is fully seated.
- 6) Re-install the air filter housing cover by lining the arrow on the housing to the arrow on the lid and refasten the two clips.

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
