

NEW RELEASE - CHEVY EZ - MARCH 2005

PLUG-IN MODULE

CHEVY/GM 6.6 DURAMAX 2001-2005

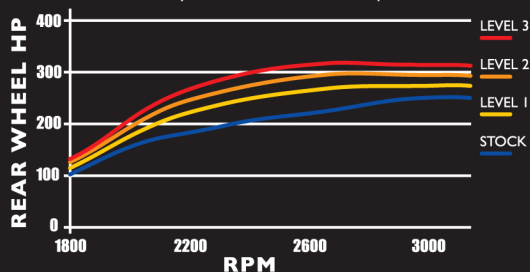

The Chevy/GM 6.6L EZ is the ultimate performance upgrade for the driver that wants on-the-fly adjustability, added towing power, quick and easy installation, improved fuel economy*, and doesn't want to spend a lot of money.

- Improves driveability, towing performance and mileage
The EZ carefully monitors timing, turbo boost pressure, and fueling parameters to maximize power, torque, and driveability.
- Gains of up to an additional 65 horsepower
- Increase torque up to 200 ft. lbs.
- 3 power levels with In-cab, on-the-fly adjustability
Control power levels on-the-fly from inside your truck at the flip-of-a-switch.
- Increases fuel economy
The EZ is tuned with a special fuel economy level that improves the atomization of fuel, delivering between a 5-10% improvement in MPG when driving in level one.*
- Easy 10 minute installation
No expensive mechanic labor, no drilling, and no computer downloading
- Helps eliminate downshifting while towing
The EZ provides enough added power to virtually eliminate downshifting when towing while still keeping EGTs at a safe level.

* LB7 Model Only.
