Part#: 124315

Product: Transfer Case Drop Kit

Application: 2003-2006 Jeep Wrangler TJ

READ AND UNDERSTAND ALL INSTRUCTIONS AND WARNINGS PRIOR TO INSTALLATION OF SYSTEM AND OPERATION OF VEHICLE.

PARTS LIST

Part #	Qty	Description
	8	YJTC4 – Transfer Case Spacer
	8	12mm-1.75 x 50mm bolt
	8	7/16" USS flat washer
	1	Loctite

INSTALLATION INSTRUCTIONS

1. Park the vehicle on a clean, flat surface and block the rear wheels for safety.
2. Support the transmission/transfer case with an appropriate hydraulic jack.
3. Loosen but do not remove the four transmission mount nuts near the middle of the main crossmember/skid plate.
4. Loosen but do not remove the six main crossmember bolts (three per side).
Note: Some models may be equipped with an additional transmission skid plate mounted ahead of the main crossmember. If this is the case, loosen the two (one per side) transmission skid plate crossmember bolts as well.
5. Remove the passenger's side mounting bolts only. Slowly lower the crossmember until there is just enough room to install the provided spacers (YJTC4). The hollow side of the the spacer should face up and fit over the raised area in the frame. Apply Loctite to the threads and loosely install a provided 12mm x 50mm bolt and 7/16" USS washer at each spacer location.
6. Repeat the spacer installation on the driver's side.
7. With all the spacers installed, torque all of the 12mm bolts to 65 ft-lbs.
8. Remove the jack and torque the four transmission mount nuts to 25 ft-lbs.
9. Visually check for proper clearance of all components.
10. Check all hardware for proper torque.
11. Check hardware after 500 miles.

NOTICE TO DEALER/INSTALLER

These instructions, the warning card, and included decals must be given to the owner of this BDS Suspension product.
