

Installation Instructions

I - Sheet Number INS-HS75 Rev.C

Hood Shield

**For proper installation and best possible fit, please read all instructions BEFORE you begin.
For technical assistance or to obtain missing parts, please call Customer Relations at 1-800-344-8759.**

Important Safety Information

- CAUTION - Before driving, ensure that the hood shield is properly anchored to vehicle.
- Do not use automatic "brush-style" car washes.
- Do not use cleaning solvents of any kind.
- Periodically check all components for tightness.

Contents **NOTE:** Actual product may vary from illustration.

Hood Shield

Screw x2

Washer x2

Bump On x4

Tools Required

Car Wash Supplies

Clean Towel

Phillips Screw
Driver

Drill

Ratchet or Wrench

Preparation Before Painting / Installation

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash your vehicle's hood to remove any debris and/or dirt.
- Dry the hood with a clean towel.

Installation Steps **NOTE:** Actual application may vary slightly from illustrations.

Open hood and remove (2) 8mm hex head screws located at the bottom of the metal grille brace on either side of the grille. Retain screws for later reinstallation.

Remove 8mm hex
screws

1

Installation Steps

NOTE: Actual application may vary slightly from drawings.

Bring hood back down to a semi-closed position. Remove (7) grille retaining fasteners with a #2 phillips screwdriver. Retain fasteners for later reinstallation.

NOTE: It may be necessary to squeeze the back side of these retainers by hand to help the screw back out of the fastener base.

2

Carefully remove grille by grasping the top and bottom of one side and gently pulling upwards. This will disengage the top underside retention clips. Repeat the same procedure for the opposite side. The grille will need to be completely removed and placed carefully aside to avoid any possible damage. Clean this newly exposed area of the hood.

3

Remove hood shield from packaging, fit hood shield onto hood at the wing mounting tabs first and then the center. Ensure the wing tabs are located on the underside of the hood and that the center mounting tab cut outs do not block the existing hood holes. Make sure that the hood shield is centrally located on the hood.

4

Re-install the grille onto the hood, making sure that the protruding mounting points on the grille line up with the receiving holes in the hood.

NOTE: the grille will not completely snap back into these mountings as the thickness of the product will now hold it off slightly.

5

Reinstall the previously removed (7) fasteners back into the grille to ensure that it is being securely held in place.

6

NOTE: Do not over tighten.

7

Installation Steps

NOTE: Actual application may vary slightly from drawings.

Re-install the previously removed (2) 8mm hex head screws back into the bottom of the metal grille brace on either side of the grille. Close hood.

8

Install (4) bump ons.

9

Care and Cleaning

- Wash only with mild soap & dry with a clean cloth.

The material that your product is made from can be recycled. Please also consider recycling the packaging that your product came in.

Congratulations!

You have purchased one of the many quality Husky® branded products. We take the utmost pride in our products and want you to enjoy years of satisfaction from your investment. We have made every effort to ensure that your product is top quality in terms of fit, durability, finish and ease of installation.
