### Tools Required

Car Wash Supplies

Clean Towel

### Preparation Before Painting / Installation

- A trial fit is recommended to ensure proper positioning and fit.
- Check fit of parts before painting as we will not accept the return of modified or painted parts.
- Wash and dry your vehicle to remove any debris and/or dirt from the installation area.
- **Ensure vehicle surface and part are above 60°F (15°C) prior to installation.**

### Installation Steps **NOTE:** Actual application may vary slightly from illustrations.

Clean the painted door frame and the B-pillar and C-pillar with an alcohol pad, and wipe dry with a soft cloth.

1

Begin with the **rear door** visor. Remove tape liner from each end flange of visor. Peel back 2" (5 cm) of tape liner from each end of the top flange.

2

## Installation Steps

**NOTE:** Actual application may vary slightly from illustrations.

Align visor to the cleaned surface. The front and rear edges of the visor should align exactly with the front and rear edges of the door. The top flange of the visor will attach to the **PAINTED** surface of the door frame **JUST ABOVE** the chrome or rubber trim of the window frame and the front flange will attach to the B-pillar surface. The rear flange will attach to the C-pillar surface.

Gently press the exposed areas of tape against the surface and verify position.

With the visor in its final position, remove the remaining tape liner by pulling on free ends.

Apply strong pressure along all flanges to ensure proper adhesion of tape.

Remove tape liner from rear flange of **front visor**. Peel back 2" (5 cm) of tape liner from each end of the tape flange.

Align visor to the previously cleaned surface AND with previously installed visor. The top flange of the visor will attach to the **PAINTED** surface of the door frame **JUST ABOVE** the chrome or rubber trim of the window frame and the rear flange will attach to the B-pillar surface.

## Installation Steps

**NOTE:** Actual application may vary slightly from illustrations.

Gently press the exposed areas of tape against the surface and verify position.

9

With the visor in its final position, remove the remaining tape liner by pulling on free ends.

10

Apply strong pressure along all flanges to ensure proper adhesion of tape.

11

## 6 Piece Set

The rear extension visor attaches with the same preparation methods as the front and rear visors.

Repeat **Steps 1-12** for opposite side.

12
