

IMPORTANT

READ BEFORE YOU BEGIN INSTALLATION

IT IS CRITICAL FOR YOUR SAFETY THAT YOU CAREFULLY READ AND FOLLOW THE SAFETY CAUTIONS AND INSTALLATION INSTRUCTIONS BOTH PRIOR TO AND DURING INSTALLATION.

USER SAFETY CAUTION

During installation, be mindful of the potential for sharp edges on the product or vehicle. Taking proper safety precautions helps ensure a safe and smooth installation process.

Always wear protective gloves and handle components with care to reduce the risk of injury.

TEMPERATURE SURFACE CAUTION

During high temperatures or extended sun exposure, surfaces of this product may become hot to the touch, posing a risk of burns or injury. Use caution when handling the product in hot weather and allow time for it to cool before contact.

Always check surface temperature before use to ensure safe handling conditions.

FASTENER TORQUE CAUTION

All fasteners must be tightened to the specified torque values provided in the installation instructions to ensure proper fit and safe operation of the tonneau cover. Under- or over-tightening can lead to product failure, potential damage to your vehicle, injury, or safety hazards while driving.

Always use a calibrated torque wrench and follow the specifications in the installation instructions.

PINCH POINT SAFETY CAUTION

This tonneau cover may create pinch points when closing or operating near solid surfaces such as the truck bed rails or tailgate. To prevent injury, keep hands, fingers, and other body parts clear of moving parts during operation.

Always operate the cover slowly and with caution to ensure safe and proper use.

⚠️ IMPORTANT

READ BEFORE YOU BEGIN INSTALLATION

IT IS CRITICAL FOR YOUR SAFETY THAT YOU CAREFULLY READ AND FOLLOW THE SAFETY CAUTIONS AND INSTALLATION INSTRUCTIONS BOTH PRIOR TO AND DURING INSTALLATION.

ENTRAPMENT SAFETY WARNING

This tonneau cover does not feature a manual release mechanism from inside the truck bed. To prevent the risk of entrapment, never allow anyone to be inside the bed of the truck when the cover is closed.

Always ensure the area is clear before closing the cover, and keep the cover securely latched when not in use to avoid accidental closure.

CARGO TRANSPORT WARNING

Do not attempt to close the tonneau cover over cargo that is taller than the depth of the truck bed.

Never force the cover to close improperly.

Forcing the cover can:

- Prevent the cover from lying flat and latching securely.
- Damage the cover's hinge and cause the cover to kink.
- Damage the rear tail panel and cause it to become detached.

TOOLS PROVIDED

- Torx wrench - T-20
- Torx wrench - T-27
- Hex wrench - 2.5MM

TOOLS REQUIRED

- 7/16" wrench
- Tape measure

NOTE: It is important that all areas where the bed cover mounts are clean and free of debris prior to installing.

PARTS INCLUDED IN YOUR KIT

- A** Cover assembly
- B** 4x Torx screws
- C** 2x Striker brackets
- D** 2x Latch brackets
- E** 4x Flat washers
- F** 4x Lock nuts
- G** 2x Cab rail brackets (6' beds only)
- H** 1x Bulkhead seal kit

IMPORTANT: Please install the bulkhead seals (H) (for 5' & 6' beds) and the 2 cab rail brackets (G) (for 6' beds only) before proceeding. Separate installation sheets are found in the hardware bags.

- 1** Place the folded, assembled bed cover (A) over the cab end of the truck box.

- 2** Unfold the bed cover (A) fully and adjust position over the truck bed for proper front (cab) and rear (tailgate) alignment. When positioned front and back, the tailgate seal should contact the tailgate with the first two fins.

- 3** Carefully refold the bed cover (A) without shifting its position on the truck bed.

4 Cab clamps.

FOR 6' BEDS

Prior to installing the cab clamps, install the cab rail brackets (G) following the provided instructions. Once complete, hook the cab clamp under the previously installed cab rail brackets (G). Tighten the knob until the jaw makes contact, then turn an additional two turns. Repeat on the opposite side of the truck bed.

FOR 5' BEDS

Hook the cab clamp under the truck bed rail metal flange. Tighten the knob until the jaw makes contact, then turn an additional two turns. Repeat on the opposite side of the truck bed.

IMPORTANT

5 Install the tailgate latch bracket (D) by aligning the curved end of the bracket into the hole in the truck bed metal and the threaded stud of the bracket into the notch in the truck bed metal.

Note: that there is a driver side tailgate bracket and a passenger side bracket.

6 On the back side of the bed metal, install a washer (E) and a lock nut (F) onto the threaded stud. Tighten the lock nut with a 7/16" wrench to 8 ft-lbs (11Nm).

7 Attach the striker bracket (C) to the latch bracket (D) using the Torx head screws (B). Leave them loose for later adjustments.

8 With the tailgate open and the front (cab) clamps secure, completely close the bed cover.

9 Align the latch with the tailgate striker bracket (C). Push down on the cover whilehand tightening the Torx screws (B) with the supplied T-27 wrench.

10 Adjustments and tightening of the latch assembly is required.

FIG. 1

The bed cover latch assemblies and rotary knob come from the factory only partially tightened to allow installation adjustments. Both latches and rotary knob will require adjustment and final tightening. **Only use the hand tools provided, do not use power tools.**

Lower the rear of the bed cover and loosen the screws on both latch assemblies and the rotary knob. Rotate the knob to locate the screws. Adjust the position of each latch so that they engage with the striker brackets, (Fig. 1). With the latches adjusted, from underneath the cover, use the provided T-20 Torx wrench to tighten the two screws, (Fig. 2) so the latch does not move in the channel. Repeat on the other side

The cables come routed through the barrel clamps of the rotary knob. Adjust the position of the rotary knob so that the cable from the driver side latch can be inserted through the barrel clamp leaving 3/4" - 1" of cable extending through the barrel clamp without turning the knob, for future adjustments (Fig. 3).

FIG. 2

Rotate the rotary knob until you see the flat head screws. Tighten the two screws using the provided Torx T-20 wrench, (Fig. 3) so the knob does not move in the channel. Repeat on the other side.

Next, tighten the barrel clamp set screws, (Fig. 4) with the provided 2.5mm hex key to secure the latch cables. Rotate the rotary knob, (Fig. 4) to verify that the latches disengage from the striker brackets.

Close the cover, then double-check that it is secure and tight to the truck bed by gently lifting the corners to ensure the mechanisms are engaged.

FIG. 3

FIG. 4

11

To make the final adjustment, loosen the striker bracket screws. Then move the bracket (C) down by firmly pushing the cover (A) or pulling the rear bow downward to the truck rail and tailgate. Make sure that both sides match, then retighten the screws to **10 ft-lbs (13.6 Nm)**

12

The tethers come installed on the bed cover hinge with a clamp at the other end. Install the clamp end by sliding the clamp onto the truck rail. Make sure the clamp is positioned as far up onto the rail as possible. Firmly hand tighten the knobs. Install the tethers on both sides of the cover.

Opening the cover

Open the cover by twisting the rotary knob and lifting the cover.

Securing the cover

To drive with the cover open, fold the cover forward to the cab and fasten BOTH straps in the middle section to the front rail. Check that the straps are tight, and pull the strap end if too loose.

FAILURE TO DO SO COULD RESULT IN DAMAGE TO THE COVER AND TRUCK.

IMPORTANT

Re-tighten the front/cab clamps and tethers after the first week of driving the vehicle. Also periodically check the clamps and tethers to ensure they are secure.

Closed/Extended Position – Bed cover must be completely secured by all four (4) clamps.

Open/Folded Position – Bed cover must be completely folded up (all panels) and secured at the cab with the provided buckles straps and with both tethers attached.

Do NOT drive with the bed cover in a partially open position.

Do NOT allow the vehicle to be towed backwards without first removing the cover from the vehicle.

Remove any snow or foreign matter before folding the bed cover.

REPLACEMENT PARTS

Replacement parts can be ordered online at extang.com/replacement-parts or you can contact our Customer Service Department for assistance. When ordering, xxx represents the 3 digit suffix, as referenced on the sales receipt or vehicle application list.

Call Out	Title	Part Number	Description	Qty
A	Cab Panel	88xxx-60	Cab panel assembly	1

LIMITED WARRANTY

WARRANTY COVERAGE

This truck bed cover is warranted against defects in materials or workmanship as follows. This warranty is void if the product has been damaged in an accident, or due to neglect, unforeseeable use, improper installation, improper servicing, or other cause not arising out of defects in material or workmanship.

The truck bed cover carries a limited warranty for five (5) years from the original date of purchase, subject to the terms below.

WARRANTY IS NOT TRANSFERABLE

The warranty is to the initial owner purchasing the truck bed cover and it is not transferrable to a subsequent end user. Proof of purchase may be required to enforce these warranty rights.

WARRANTY CONDITIONS

Failure to follow these care and use instructions will void the warranty.

- Clean with mild automotive soap and water only.
- Cover must be secured at all points when vehicle is in motion. When not fully extended, cover must be completely folded up and secured at the cab with the provided buckle straps and tethers attached. Do NOT drive with the bed cover in a partially open position.
- Check all clamps and retention mechanisms for tightness after a week of driving following installation (or re-installation) of the cover and periodically thereafter.
- Before opening, cover must be free of all foreign materials including snow and ice.
- Do NOT tow your vehicle from the rear with the cover on your vehicle. If towing from the rear is required, the cover MUST be removed from the vehicle and properly stored.

WARRANTY PERFORMANCE

If all warranty conditions are met, a defective truck bed cover or hardware component will either be repaired or replaced (at our option). We reserve the right, for any warranty, to substitute a newer model or bed cover having similar form and function, to offer a warranty discount on an entire replacement system, and/or provide remedies other than those mentioned in this document.

WARRANTY PROCESS

A Return Authorization number must be obtained from our Customer Service Department prior to returning any product. We may require the original item to be returned postage prepaid for final determination. Shipping charges will apply for any repair or replacement. Other than postage or shipping charges, no charge will be made for repair or replacement under this warranty.

This warranty gives you specific legal rights. As an owner, you may also have additional rights and remedies under the laws of your state.

WARRANTY REGISTRATION

Warranty registration must be on file and/or proof of original purchase (detailed and dated receipt) required for warranty to be effective.
