

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

Where STRENGTH Meets Style! ™

I. SAFETY

THE SAFETY OF YOU AND OTHERS IS VERY IMPORTANT TO US!

In order to minimize this risk and make an informed decision about safety, it is important that you carefully read and follow the installation instructions we have provided.

We urge you to use your own good judgment and allow plenty of time for install.

II. HAZARD CHECKLIST

- Always wear personal protective equipment (PPE) such as: protective eye wear, gloves, close toed shoes, etc.
- We recommend that you use a certified mechanic or shop for professional installation.
- Always set emergency brakes on vehicle and use tire blocks to ensure vehicle stabilization.
- Use caution when lifting, we recommend the use of equipment to help lift bumpers into place.
- Use caution when using power tools such as air ratchet, etc.
- Take caution when installing wiring.
- Perform regular inspections of hardware, bolts, brackets, etc.
- Rigid light brackets are specifically designed to fit Rigid lights, we do not guarantee off brand fitment.
- Our winch mount is designed for Warn and Superwinch products. We do not guarantee off brand fitment.

III. USE & RISK

Bodyguard Products LLC is not responsible for damage to our products, or other subsequent damage that might occur, as a result of misuse or improper installation. While we do manufacture products that appear stronger than factory parts, our products should not be viewed or relied upon as life-saving devices in the event of a collision or rollover. We make no claims relating to airbag compatibility, crashworthiness, or sturdiness. It is the customer's responsibility to check with the vehicle manufacturer or auto dealer regarding airbag compatibility and automobile manufacturer's warranty before installing our products.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

IV. PREPARATION

- Ensure personal safety by checking for hazards and identifying risks.
- Check for correct hardware.
- Check for tools needed.
- Use either foam or tape on fenders to prevent scratches to the truck when installing your bumper.
- Please allow approximately 3-4 hours for installation.

V. GRILLE AND CAMERA REMOVAL

1. Remove 9 plastic clips holding plastic cover above grille.

2. Remove torx screws from hood latch, and remove hood latch. Then remove the plastic cover above the grille.

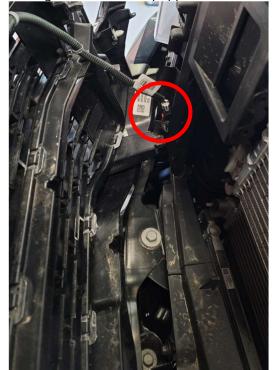

Bodyguard Products LLC ph: 903-785-8939

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

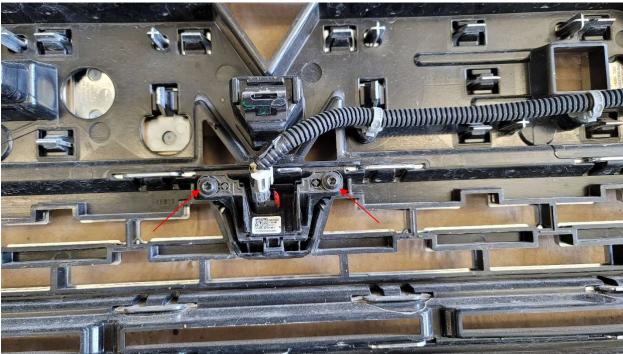

- 3. Next un screw the screws holding the grille to the truck.
- 4. To remove the grille, you must pull gently around the edges to pop it out. The painted covers under the headlights must also be popped loose to remove the grille.

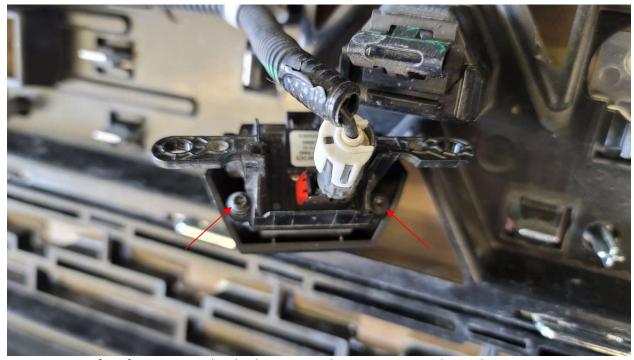

3. Once the grille is loose disconnect camera from plug located at the bottom passenger side of the grille.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

4. Remove camera from grille by removing the two torx screws shown above

5. Remove camera from factory camera bracket by removing the two torx screws shown above

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

6. Disconnect camera from wiring harness. Place the camera in a safe place to be installed in the bumper in a later step.

FACTORY BUMPER REMOVAL

Note: We recommend having someone help hold the bumper from falling while uninstalling

1. Remove the two bolts circled above. This will loosen the bumper from the factory truck mounts.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

2. Remove the two bolts circled above. This will fully unbolt the bumper from the truck.

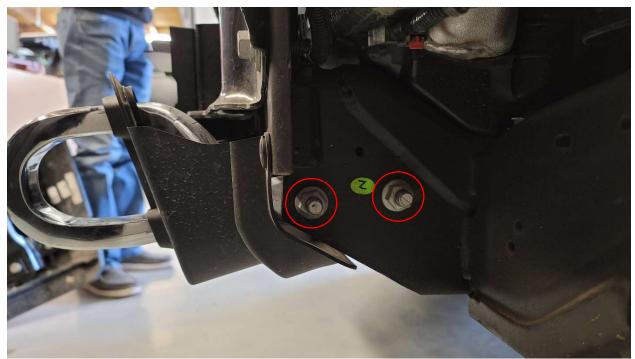

3. Once the bumper is loose this will help locate the fog light and sensor wiring harness plug. This is located on the passenger side. You may have to tilt or partially remove the factory bumper to better access this plug.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

- 4. Remove the screws circled in blue. This will remove the radiator intake shroud. If your truck has shutters here then save this part for a later step.
- 5. Next remove the bolts circled in red. Save these bolts for the installation of your Bodyguard bumper.

- 5. Finally remove the bolts holding the factory shackles circled in red. Save these bolts for the installation of your Bodyguard bumper.
- 6. If your truck has a front camera route the camera cable down and connect the provided camera extension cable.
- 7. Re install the factory grille.
- 8. Your Bodyguard bumper is now ready to install.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

VI. MOUNT INSTALLATION

- 1. Install the mounts to the truck. The mounts will reuse the factory hardware.
- 2. Next install the adaptive shutters to the mounts. This will use 4x 5/16"-18 x 3/4" Long, Stainless Steel SBHCS.

Note: Take note of the top left bolt used to secure the adaptive shutters. The bolt will have to face outwards to avoid the line that is located behind it.

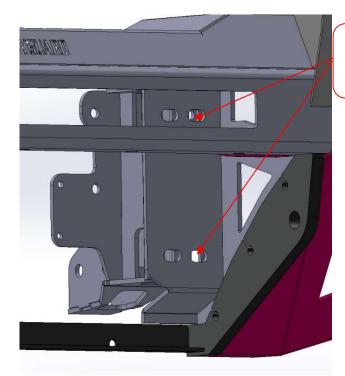

3. Use the factory bolts that were used to secure the factory tow hooks.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

VIII. Bumper Install

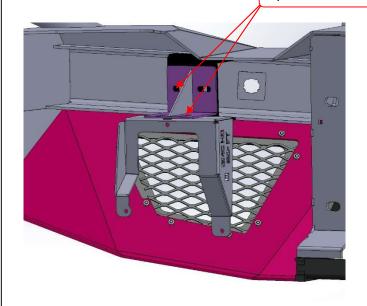

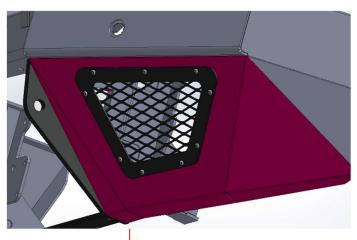

Use Double Bolts to secure Mounts to Bumper.

1. Secure the bumper to the mounts with 4x 1/2"-13 x 1-1/2" Long, Grade 8 HB, Zinc Double Bolt (1.75")

VII. FACTORY FOG LIGHT INSTALATION

5/16"-18 x 1" Zinc Grade 5 Hex Bolts

1/4"-20 X 5/8" Stainless Steel SBHCS

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

IX. RIGID LIGHTING INSTALLATION (If applicable)

Install Rigid lights into bolt on assembly. Using Rigid provided hardware. Then bolt
on fog light assembly using items 1/4"-20 button head bolts. Repeat this process
for the other side. See Rigid instructions for wiring.

X. CENTER SECTION INSTALLATION

• Follow the instructions that apply to purchased center section.

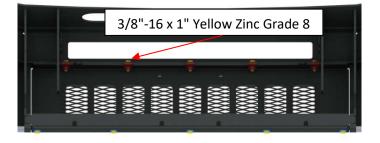

1) Place clip nuts onto bumper and center section as shown.

3/8"-16 Clip Nut

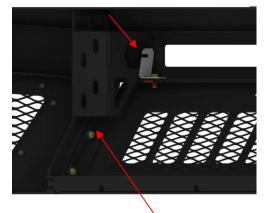

2) Bolt center section to bumper using 3/8" hardware.

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

- 3) Next bolt center section to 3/4" shackle mounts on both sides using 3/8" hardware.
- 4) Check that all bolts are secure on the skid plate assembly.
- 5) If installing the light bar tabs, the tabs will install with the center section hardware as shown. (Light bar tab replaces washer on top.)

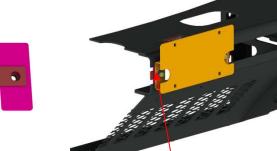

3/8"-16 x 2" Yellow Zinc Grade 8 Hex

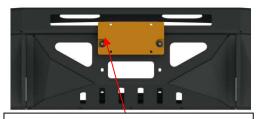

VIII. LICENSE PLATE INSTALLATION

Option 1: CHANNEL MOUNT

- 1) Clip nut onto license plate tab (shown in pink).
- 2) Place tab behind channel and bolt license plate assembly to tab using items M8 Hardware.
- 3) Insert item Plastic License Plate Nuts into license plate bracket and mount license plate using #14 x 5/8" Zinc License Plate Screw and a power drill.

M8-1.25 x 25mm Long Grade 8.8 Hex Bolt

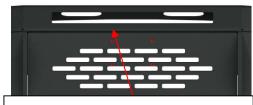

M8-1.25 x 25mm Long Grade 8.8 Hex

Option 2: WINCH MOUNT

 If installing a low winch mount, the license plate bracket can be mounted using M8 hardware in the holes cut above the fairlead mount.
 Insert item Plastic License Plate Nuts into license plate bracket and mount license plate using #14 x 5/8" Zinc License Plate Screw and a power drill.

Option 3: SMOOTH PLATE SKID

1) Insert item Plastic License Plate Nuts into license plate bracket and mount license plate using #14 x 5/8" Zinc License Plate Screw and a power drill.

M8-1.25 x 25mm Long Grade 8.8 Hex

Option 4: TREAD PLATE SKID

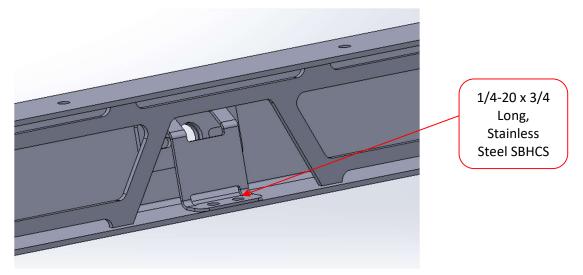

1) Insert item Plastic License Plate Nuts into license plate bracket and mount license plate using #14 x 5/8" Zinc License Plate Screw and a power drill.

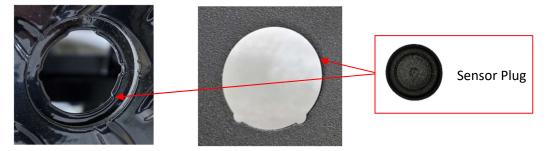

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

IX. CAMERA INSTALL

1. Install the camera with the provided bracket. This bracket will hold the factory camera against the bumper.

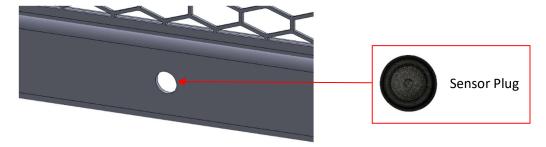

X. SENSOR PLUG INSTALL

Note: *The above sensor holes may not be the exact same cutout in your bumper. The images used as examples.*1. If your truck does not have sensors, use the provided sensor plugs.

XI. CAMERA PLUG INSTALL

1. If your truck does not have the factory front camera, insert the provided plug into the camera cutout.

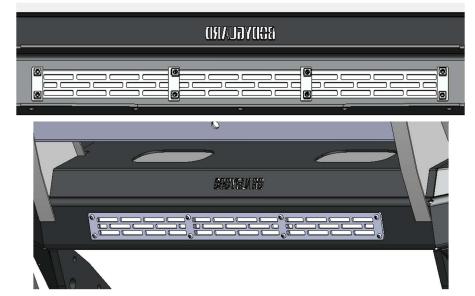

T2 Series – Front Replacement 2020 - 2023 GMC 2500/3500 HD

XII. LIGHT BAR MESH

1) Install 2x 1/4-20 (.093-.126: Panel Range)
Zinc Electroplate Spring Steel Cage Nut onto tabs.

2) Install mesh into bumper using the mesh tabs and 1/4-20 Hardware.

XIII. FINISHING UP

- Install shackles.
- Confirm that all hardware is tightened and everything is secure.
- Secure wiring harnesses for lights and sensors.
- Test all lighting and wiring before using vehicle (fog lights, sensors, etc.).

XIV. MAINTENANCE

Frequently check that all hardware is tightened and that all wiring and connections are secure.

FEEDBACK

We'd love to hear from you! Please send your pictures, testimonials, comments, or suggestions to us by email at info@bodyguardbumpers.com. We frequently use customer pictures for brochures and marketing materials, and we always welcome customer feedback to ensure quality improvements within our company. Thanks for your purchase; we appreciate your business very much!
