NOMADIC AWNINGS

THE OVS DIFFERENCE

Overland Vehicle Systems Nomadic Awning series is built with the same high-quality materials as their Nomadic roof top tents, OVS' Awnings provides shade on hot sunny days and easily attaches to most standard roof racks.

Aluminum frame box extrusion with steel hardware

Secure tie downs points are available free standing with a pole setting

Heavy Duty tie down points are also included

NOMADIC 270

When you're looking for a quick deploying one-man operation awning that gives you maximum square footage of shelter you came to the right place. Our covers are manufactured out of 600D poly cotton rip stop material that has heat sealed seams which ensure you're not going to see any leaks through seams regardless of the size of rain you're dealing with.

NOMADIC180

STANDARD

Quick Set Up and Storage
