

Components and Hardware:

Components and Hardware:

- 1. Molle Fuel Can Adapter (1)
- 2. M6 Flange Bolts (4)
- 3. M6 Locking Flange Nuts (4)
- 4. M8 Flat Washers (8)

Tools for Installation:

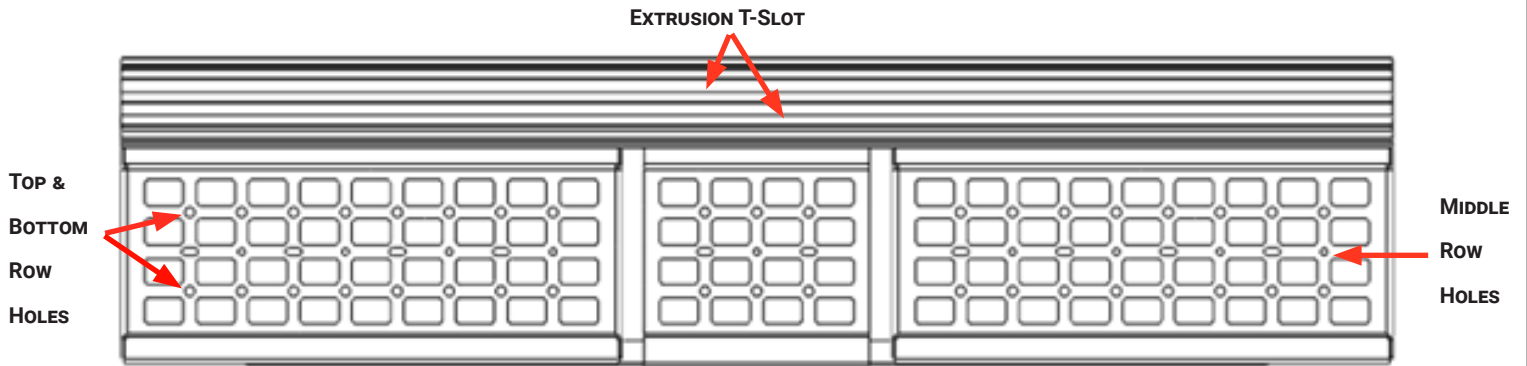

- 10mm Wrench
- 10mm Ratchet

Mount Options:

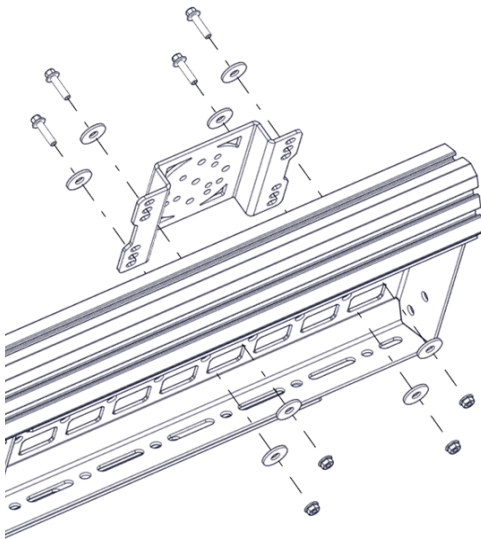

Mounting options for the Molle Fuel Can Adapter

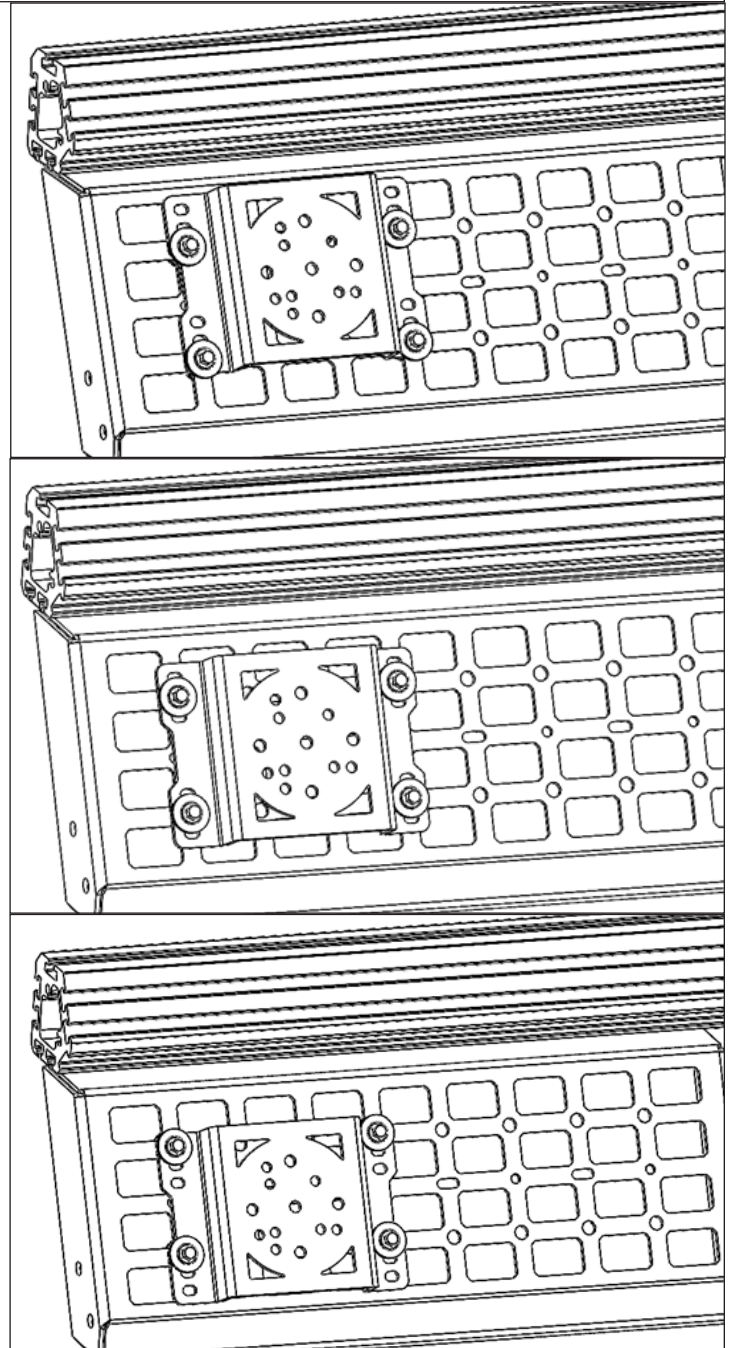

Molle Fuel Can Adapter

Using provided hardware, M6 Flange Bolts (#2), M8 Flat Washers (#4) and M6 Locking Flange Nuts (#3), attach the Molle Fuel Can Adapter (#1) to your desired location on the Molle Panel. Utilize the top and bottom row holes for mounting positions shown in images.

HARDWARE INSTALLATION

Molle Fuel Can Adapter

If mounting to an extrusion, slide 2 T-Nuts (not included) into the top slot of the extrusion. This position will utilize the middle row holes. It is recommended to install the hardware in the outer 4 corners in this mounting position.
