### TOOLS NEEDED FOR INSTALLATION
#### HERRAMIENTAS NECESARIAS PARA LA INSTALACION
#### OUTILS REQUIS POUR L’INSTALLATION

- Socket Set
  - Juego de llaves de cabo
  - Jeu de douilles
  - 5/16" Standard Wrench Set
  - Clés standard
On rocker panel, locate the set of 3 holes covered in tape and remove tape.

Use the bolt guide (wire) to pull the small bolt plate through the large hole and place it on the right lower hole.

Then place a vinyl gasket on it. This method keeps it from falling back into rocker. Apply this method to all six small bolt plates.

Place a vinyl gasket on large bolt plate and insert through large hole. Place threaded hole of plate on lower left hole.

* Place bracket and attach with: (All brackets are marked accordingly)
  A: 3/8” hex nuts, flat and lock washers on top and lower bolts.
  B: 3/8”1” hex head bolt with flat and lock washer.
  Leave loose at this point.

Put square head bolts on lower channel of sidebars. Align on holes of brackets and use flange nuts to hole. Leave loose

Align sidebars to preference and tighten all bolts and nuts.
